

Title: Krish 3

Year: 2013

Genres: Romance, action

Storyline: Scientist Rohit Mehra lives with his son Krishna Mehra (both played by Hrithik Roshan) in Mumbai. Krishna is married to Priya (Priyanka Chopra), a journalist for Aaj Tak. Rohit works in a research institute for the Indian government and Krishna, while moonlighting as the superhero *Krrish*, is regularly fired from various day jobs due to lack of attendance. Rohit is researching on a device that will bring life to dead tissues by the use of solar energy. Despite several attempts, he fails to complete the experiment due to the high intensity of sun rays. On a usual day, Krishna loses his job from the security wing of a company when he hears news about an aeroplane whose front tyres are stuck due to some malfunctioning which creates high risk, even if landed, it may explode and so will the passengers inside. Krishna immediately changes himself to *Krrish* and saves the plane from accident by holding the landing gear in place to allow the tyres to support the nose of the craft. A few days later, Rohit hears about a deadly disease spreading in Namibia due to a virus whose antidote has not yet been discovered. He consults his friend Dr. Varun Shetty (Arif Zakaria) about the situation. Meanwhile, Shetty receives a phone call from Dr. Alok Sen (Asif Basra), a scientist working for Kaal Laboratories who insists on meeting him in order to reveal information about the virus and its antidote. Both Sen and Shetty are, however, murdered by Kaya (Kangana Ranaut), a shapeshifting female mutant. She is the henchwoman of Kaal (Vivek Oberoi), a handicapped evil genius who possesses telekinetic powers. Kaal creates a team of human-animal hybrids called "*maanvars*", with distinct physical powers in order to cure himself but fails. Later it is revealed the virus in Namibia was spread by Kaal himself to incur huge profits by selling its antidote, the singular source of which is his blood.
